Professional Summary:

Detail-oriented Frontend Web Developer with over 2.5 years of experience building visually appealing and high-performance websites. Skilled in React.js, Tailwind CSS, and modern UI frameworks, with expertise in creating responsive and accessible interfaces. While specializing in frontend development, I can also use frameworks like Supabase for backend functionality and am currently expanding my backend knowledge.

Additionally, I am a graphic designer with a strong eye for aesthetics and branding. I have experience in UI prototyping and creating engaging visual content. Passionate about problem-solving, continuous learning, and delivering high-quality digital experiences.

Skills:

Frontend Development:

- HTML, CSS, JavaScript (ES6+), TypeScript
- React.js, Tailwind CSS, Shadcn
- UI Prototyping
- Responsive Web Design & Accessibility (A11y)
- Performance Optimization & Debugging

Backend & Database (Learning & Usage):

- Supabase (Authentication, Database, and API Integration)
- Utilizing frameworks with backend functionality when needed

Graphic Design & Branding:

- Canva, Figma
- Logo & Brand Identity Design

Social Media Management:

- Experience managing X (Twitter), TikTok, Facebook, and Instagram
- Grew a personal Facebook page to 7,000+ followers and an X (Twitter) account to 600+ followers

Other Skills:

- Git & Version Control
- IT Troubleshooting & Support
- Project Management
- Critical Thinking & Problem-Solving
- Idealist & Visionary Thinking
- Collaboration & Leadership

Experience:

Frontend Developer & Team Lead | Tresh Team (2023 – Present)

- Leading a team focused on website development and digital projects.
- Overseeing UI design, frontend development, and team collaboration.
- Providing mentorship and technical guidance to team members.

Freelance Frontend Developer (2024 – Present)
